BAVARIAN HORTICULTURAL SHOW KRONACH

Hosting the Regional Garden Festival, Kronach had the chance to return a former industrial site to its citizens as recreational area, while providing necessary retention space for the rivers Kronach, Haßlach and Rodach. The 1.7km green corridor is divided into functional and more creative spaces, revolving around the theme of town-park-landscape. The Stadtgarten urban park with its dominant linden promenade ending in the Town Terrace conveys urbanity. In the park area spacious lawns encourage relaxation and play, offering a calm contrast to the lively, multi-faceted exhibition area.
